

GET CREATIVE WITH A INDOOR FORT

Kids love forts!

Who doesn't love small, enclosed spaces where they can hide their stuff, hide themselves, be cozy, snack, AND READ!!

Here's what you'll need:

String
Lights
Sheets
Clothespins
Hammer and nail

Ideally, you need to be able to stretch the string from one point in the room, across to another point. I used a tiny nail at the corner of a window frame. No damage done.

ENJOY!
